EXPERIENCE

Public Health Analyst

May 2021 – Present

Association of State and Territorial Health Officials, Arlington, VA

Senior Analyst/Manager, Infectious Disease

Oct 2022 – Present

- Support management of project finances, including coordinating contractor invoicing and tracking contract spenddown for \$6 million in funding.
- Manage the compilation and submission of contract packages, including drafting contractor SOWs, pricing schedules, and amendments.
- Contribute to the development, management, and evaluation of project reporting activities and workplans.
- Conceptualize, draft, and manage project deliverables and activities.

Analyst, Infectious Disease

May 2021 – Sept 2022

- Assisted with the planning and coordination of webinars, workshops, and meetings, development of ASTHO products (reports, blogs, etc.), and collaboration with cross-cutting teams.
- Tracked legislation relevant to immunization, outbreak response, infectious disease, and other priority issues for dissemination to members, affiliates, and national organizations.
- Provided technical assistance to states through rapid development, analysis, and summary of research and/or original data collection activities.

Public Health and Medical Preparedness Intern

Jan 2021 – Apr 2021

Florida Department of Health in Monroe County, Tavernier, FL

- Spearheaded logistics and workflow plan for the establishment of a mass point of dispensing (POD) for COVID-19 vaccination in jurisdiction of 74,000+ residents.
- Coordinated creation of an annex of 70+ faith-based partners available and willing to assist during current and future response activities.
- Assisted in updating the Emergency Operations Plan to address contingencies and demographic risk considerations.

Research Assistant

Aug 2019 – May 2020

Department of Biobehavioral Nursing, University of Florida, Gainesville, FL

- Headed data management and tracking under 3 distinct protocols with 200+ participants overall aiming to evaluate biobehavioral outcomes in patients post-stem cell transplantation.
- Managed scoring, data entry and cleaning of 100+ data points per enrollee within REDCap and OnCore to ensure validity.
- Streamlined audit of 150+ patient files to assure quality and adherence to protocol.

Summer Program for the Advancement of Research Knowledge (SPARK) Intern

May 2019 – Aug 2019

Department of Cancer Epidemiology, H. Lee Moffitt Cancer Center, Tampa, FL

- Consulted with 60+ patients via phone to administer enrollment and follow-up procedures for construction of a prostate cancer biobank to evaluate the role of genetics in aggressive forms of prostate cancer in African American populations.
- Coordinated 50+ outgoing tissue sample requests with over 30 different Florida hospitals to ensure criteria and receipt.
- Assembled and disseminated study materials, including management of participant compensation valued at >\$1000 total.
- Presented research findings in a talk strategically catered to both parents and researchers at Moffitt Research Day 2019.
