EXPERIENCE

Public Health Analyst

Association of State and Territorial Health Officials (ASTHO), Arlington, VA

Senior Analyst, Infectious Disease

Oct 2022 – Present

Analyst, Infectious Disease

May 2021 – Sept 2022

- Develop presentations, one-pagers, reports, blog posts, and other thought leadership pieces on key issues related to infectious disease and project area outcomes.
- Conduct rapid-response research in support of technical assistance solicited by state and territorial health agencies.
- Track the status of state legislation, regulations, or federal agency actions (advisory committee meetings, briefing calls, etc.) and contribute to the development of written content summarizing key considerations or impacts on ASTHO member jurisdictions.
- Provide project management support by drafting grant proposals, workplans, interim progress reports, and independently managing project invoicing and spenddown tracking for over \$6,000,000 in funding.
- Routinely liaise with external partners including representatives from federal and state agencies, affiliate organizations, project consultants, and community-based organizations.
- Coordinate virtual, hybrid, or in-person meetings set up, including material preparation, agenda and presentation development, and capturing of key discussion items for post-event follow up.

Public Health and Medical Preparedness Intern

Jan 2021 – Apr 2021

Florida Department of Health in Monroe County, Tavernier, FL

- Spearheaded logistics and workflow plan for the establishment of a mass point of dispensing (POD) for COVID-19 vaccination in jurisdiction of 74,000+ residents.
- Coordinated creation of an annex of 70+ faith-based partners available and willing to assist during current and future response activities.
- Assisted in updating the Emergency Operations Plan to address contingencies and demographic risk considerations.

Research Assistant

Aug 2019 – May 2020

Department of Biobehavioral Nursing, University of Florida, Gainesville, FL

- Headed data management and tracking under 3 distinct protocols with 200+ participants overall aiming to evaluate biobehavioral outcomes in patients post- stem cell transplantation.
- Managed scoring, data entry and cleaning of 100+ data points per enrollee within REDCap and OnCore to ensure validity.
- Streamlined audit of 150+ patient files to assure quality and adherence to protocol.

Summer Program for the Advancement of Research Knowledge (SPARK) Intern

May 2019 – Aug 2019

Department of Cancer Epidemiology, H. Lee Moffitt Cancer Center, Tampa, FL

- Consulted with 60+ patients via phone to administer enrollment and follow-up procedures for construction of a prostate cancer biobank.
- Coordinated 50+ outgoing tissue sample requests with over 30 different Florida hospitals to ensure criteria and receipt.
- Assembled and disseminated study materials, including management of participant compensation valued at >\$1000 total.
